ADAPTING TEACHING METHODS TO INDIVIDUAL LEARNING STYLES

The Educational Enrichment Program at Williamsburg Christian Academy provides academic support for students with different learning styles and abilities. It ensures that the exceptionally gifted students are challenged, the struggling learners are supported, and that each unique learning style is accommodated to pave the way for success. Each student accepted into the enrichment program receives a personalized educational plan (PEP) that is written annually by the student's parents, teachers, and EE personnel. Students may receive accommodations and modifications within the regular classroom setting or participate in classes in our resource room.

To offer the most comprehensive level of service, our experienced in-house enrichment staff works with external professionals including occupational therapists, special education representatives, and counselors.

Enrichment personnel meet weekly with classroom teachers to evaluate student progress and ensure program effectiveness. The team also partners with families to provide encouragement and support to help students succeed.

ENRICHMENT SERVICES INCLUDE:

- **Directed Studies Classes** help prepare students for quizzes and tests while teaching organizational and study skills.
- **Enrichment Classes** are taught in a small group setting by specialized instructors, sometimes utilizing alternative curriculum.
- **NILD Educational Therapy** is designed to treat learning difficulties and help students increase their thinking skills for higher achievement in the classroom and in life.
- **The Wilson Reading System** is a multi-sensory instruction that improves decoding skills, fluency, and comprehension.
- **Online Courses** are available in a variety of subjects for students who benefit from this type of learning.

ADDITIONAL ENRICHMENT SERVICES:

- Occupational therapy
- Speech therapy
- Auditory listening skills
- Audio text books
- Physical exercise such as trampoline, running, wall push-ups, heavy ball, etc.
- Social skills training
- Tutoring

WORDS FROM PARENTS

"The Enrichment Program's committed team has worked with our son to help him love school again. What a blessing! They work with us to tweak his program and recommend improvements when necessary and do so in a loving and encouraging way."

— Suzanne and Victor Maggio

"Our son has truly blossomed at WCA, thanks to the Enrichment Program. It has been like watching a caterpillar turn into a butterfly. The attention to his individual needs, by such a caring staff, has given him the confidence to say "I can" not "I can't." He has grown, not only as a student, but, into a young man with dreams. As parents, we couldn't be more proud."

— Anne Marie and Joseph Wert

WORDS FROM AN ENRICHMENT TEACHER

"It warms my heart to see a child who, after struggling to achieve average scores on tests in the past, works incredibly hard in directed studies and goes on to achieve not only an A, but many times a perfect score. You can literally see by the smiles on their faces that self-esteem and confidence are growing day by day!"

— Cristi Nice
