KBB Expert Review

The Toyota Camry has been the best-selling car in the country for more than a decade, but if you exclude sales to rental car agencies and such, the title goes to the more stylish and lively Honda Accord. Even Camry buyers have expressed a taste for something a little edgier, with almost half opting for the sportier-themed Camry SE. So in a straightforward case of giving buyers what they want, Toyota has released the most stylish, most responsive Camry ever. The exterior has been almost completely redesigned, the interior has been freshened with new materials, designs and technologies, and the steering, braking and suspension have all been revised for more responsive driving manners. Combined with the famous reliability and strong resale values that have helped build the Toyota Camry into an automotive legend, the new Camry is destined for even greater heights.

enjoying more than Accord

By Joe on Tuesday, March 10, 2015

"Put it this way I traded a Honda Accord 2013 for this 2015 Toyota Camry SE it drives nice and it is a lot less road noise than Honda and not near as jerky."
